ANY OTHER BUSINESS

Discussion and recommendation of the Assembly if it is allowed in Handgun Standard Division to use pistols with a muzzle weight (like for example the Bul Radical).

The only restriction with the Standard Division rules (except for the box) is "Compensators, ports, sound and/or flash suppressors are not allowed".

The IPSC Glossary definition says: "Compensator - A device fitted to the muzzle end of a barrel to counter muzzle rise (usually by diverting away escaping gasses)".

In the FAQ of our website it is said: "A weight attached to the end of the muzzle is still deemed to be a compensator, even if it does not have holes".

There are different opinions in the Executive Council about this. Therefore we would like to get the feeling of the Assembly.
