M1A2-F Firearm Shot Timer

1. PROFILE

A shot timer is a device that gives an audible start signal, responds to the sound of the gun shots and records the time that they occur.

M1A2 shot timer is suitable for military and police shooting training, and IPSC, IDPA, 3GUNS and hunting sports.

The M1A2-F is designed to improve your shooting skills. Whether you are in law enforcement, the military, are a competitive shooter or a hobby shooter.

It is widely used in military and police shooting training, and professional shooting sports competitions in many countries around the world.

2. FUNCTIONS

Three in One function, It is not only a firearm shot timer and a stopwatch, and can also be used for countdown.

2.1 Firearm Shot Timer

2.2 Stopwatch

2.3 Countdown

It is often used in walkthrough of stages before competition and the limited time event of shooting competition. The longest countdown time is 600 seconds.

3. FEATURES

3.1 Silicon buttons with working status indicator light.

The indicator light will guide user the next operation, visually see the working status of the device. Easier for shooters to operate.

3.2 Automatic backlight screen.

After registering the gunshot, the screen will light automatically.

This makes the data showing on screen clear to read and suitable for outdoor use under strong light conditions.

3.3 Automatic echo filtering.

In enclosed indoor environments, noise interference such as echoes, are automatically eliminated to ensure accurate timing.

3.4 Quick access key.

When not in timing mode, press the unlock button for 2 seconds to quickly enter the sound and sensitivity adjustment page.

Then press the volume button for 2 seconds to quickly check group scores.

To quickly start/stop "Par" mode, press the "+" button for 2 seconds.

To quickly begin the countdown function, press "-" button for 2 seconds.

3.5 Automatic shutdown.

Under power saving mode, you can customize the automatic shutdown time. When the device has been in non-operating state for your customized time, it will automatically shut down to save power.

3.6 Belt clip(Optional accessory)

When timer is clipped to a belt, it is easier for the shooter to move and view data. It can also be hung on the chest or backpack, easy to carry.

3.7 Wireless Shot timer can be wirelessly connected to the LED large-screen display to make scores clearer at a stage. Especially suitable for competitions and club shooting stages.

3.8 IPX4 Water Resistant

It can be used on rainy days at outdoor shooting events.

4. Two Models

Bluetooth wireless model: M1A2-FW

Bluetooth standard model: M1A2-F

The Bluetooth timer can be connected with the Practiscore APP, which can assist RO to record the scores in shooting competitions. In daily shooting training, it can help shooters to record the shooting results, analyze the shooting status and improve their shooting skills.

5. APPLICATION

5.1 Domestic military and police shooting training

5.2 2018 IPSC level 3 competition in Laos(RO uses it)

5.3 2020 IPSC Rifle level 3 competition in Ukraine

5.4 Used in lots of club's shooting training and competitions all over the world.
