

IPSC COMPETITION RULES

JANUARY 2019 INTERPRETATIONS

Please note that these interpretations are issued in compliance with Section 11.8 of the IPSC Competition Rules and are subject to ratification or modification at the next IPSC Assembly.

1. All Competition Rules

In respect of Section 10.5, a competitor who allows the muzzle of his firearm to point at any part of another person's body (e.g. Match Official or spectator) during a course of fire, will be disqualified for unsafe gun handling. Exception: a disqualification is not applicable if the problem is due to another person appearing downrange from the competitor during a course of fire, provided that the competitor complies with the provisions of Rule 8.6.5. However, if a competitor's action causes another person to appear downrange during a course of fire, the exception does not apply and the competitor will be disqualified for unsafe gun handling.

2. Handgun and Combined Competition Rules

Production Divisions – Appendices D4, D4a and D4b.

In respect of Special Condition 18.4 and the expression “Aftermarket trigger assemblies”:

A trigger assembly is defined as a mechanism that, once the trigger is pulled, activates the firing sequence of a firearm. Note that, if the original trigger includes a trigger safety, then the aftermarket trigger must also include a trigger safety.

3. Pistol Caliber Carbine Competition Rules

Appendix D: Pistol Caliber Carbine Division.

Conversion Kits

Kits that convert a handgun or rifle into a pistol caliber carbine are permitted.
