

Attention: Course of Fire Designers

IPSC has made several adjustments as to how Courses of Fire are supposed to be presented (based on the 2026 edition of the IPSC Competition Rule books).

Here are some of the changes being implemented:

1. Instead of using "Rounds to be Scored" (for handgun) and "Minimum Number of Rounds" (for PCC, MR, HPR, and SG), the phrase "**Minimum Number of Rounds Required**" shall be used across all disciplines.
2. No need to indicate the type of course
3. The "Competitor Ready Condition" needs to be indicated across all disciplines. You may either describe the ready condition via text description, or simply putting "**As per Rule 3.2.2, Section 8.2, & Appendix E1/E2**" as these sections describe the default ready conditions in each discipline.
4. Start Position describes the location as to where the competitor is supposed to start (**either on mark or anywhere within the designated area**).
5. For Mini Rifle, Rifle, and PCC, **distances need to be indicated**.
6. The default Firearm Ready Condition for Handgun is "loaded and holstered" and, if that is the case, does not need to be indicated in the stage description.

Presented below are some samples of how to construct your stage descriptions.
